

PRODUCT STEWARDSHIP POLICY

ACHEMA VISION – to be a leader of business, based on qualitative, progressive technologies and stable production, in Lithuanian and foreign markets.

ACHEMA MISSION – development of effective and safe production of fertilizers and chemicals in accordance with harmonious environment and social responsibility principles.

OUR MANAGEMENT COMMITMENT:

- Conduct all our activities based on fundamental values of Fertilizers Europe.
- Constantly improve Product Stewardship programme.
- Ensure compliance with product stewardship, Fertilizers Europe, employees' health and safety, environmental and security standards' requirements.
- Recognize the responsibility to ensure safe, environmentally correct and secure product handling throughout entire product supply chain.
- Constantly develop processes and products using best manufacturing practices to ensure continuous improvement and minimize risks.
- Ensure all participants of the product supply chain comply with safety requirements.
- Effectively cooperate with clients, suppliers, transporters, distributors, farmers, government agencies, etc.
- Set product stewardship improvement targets and allocate sufficient resources for product stewardship activities.
- Communication with and involvement of employees and the participants of the supply chain to raise the awareness of product stewardship and its importance.

ACHEMA Product Stewardship Policy is publicly available to all the persons concerned.
