

LIQUEFIED ARGON

Product specification	Liquefied argon 5.0
	Monomark standard
1. The amount of Argon (Ar), %, not less	99.999
2. The amount of water vapor, $\mu\text{l/l}$, max /or water vapor saturation temperature (Dew point), $^{\circ}\text{C}$, not higher than	2 minus 70
3. The amount of Oxygen (O_2), $\mu\text{l/l}$, max	2
4. The amount of Nitrogen (N_2), $\mu\text{l/l}$, max	5
5. The amount of Methane (CH_4) and other hydrocarbons converted to methane, $\mu\text{l/l}$, max	1
